

WINTER BLUES

All, all that you are
All, all that I am to you
We are one of a kind
You and I.

Walk along
Through the light & the dark of night
Walk along with me
Into the world of our dreams.
On a wintery misty night
Do you hear me?

Cold, cold as a stone
Cold, cold as a lover's farewell
Memory of the time
You were far.

Walk along
Through the light & the dark of night
Walk along with me
Into the world of our dreams,
Into the world of our dreams.

You remember those magic nights
You remember us making love
So in love
Ah... ah!

All, all that you are
All, all that I am to you
I am longing for you
For our love.

Walk along
Through the light & the dark of night
Walk along with me
Into the world of our dreams
Into the world of our dreams
Into the world of our dreams.

On this wintery misty night
Do you hear me?
Hear me.
